Experience

- Mar 2014– **Robot Software Engineer, Aldebaran**
- Developing interactive robot applications and behaviors for the B2B and B2C markets.
- 2012 - 2014 **Doctoral Researcher, Human Robot Interaction Lab, Tufts University**
- Implemented distributed notification system for the ADE middleware
 - Overhauled system GUIs for ADE middleware with improved efficiency and speed, as well as a simplified UX
 - Designed and conducted HRI studies investigating the role of remote video feeds on perceptions of robot teammates; submitted for peer review
 - Developed software for data-mining rich audio and video corpora and annotations
 - Designed and built web-survey platform for multiple HRI studies
- 2012, 2013 **Teaching Assistant, Computer Science Dept., Tufts University**
- Maintained automated testing suite for introductory C++ course
 - Provided instruction to students during lab sections as well as office hours
- 2010 - 2012 **Graduate Research Assistant, Computer-Human Interaction Lab, Bowling Green State University**
- Part of a team that developed a novel, tangible password input system
 - Designed, built and tested an alternative UI for World of Warcraft for the visually impaired community
 - Helped build a series of web-tools for use in undergraduate Geology courses
 - Investigated the learning benefits of and tradeoffs between mouse, touch and tangible input systems

Education

- 2012 - 2014 **Graduate studies in Computer Science, Tufts University, Medford, MA**
Withdrew in good standing from Computer Science & Cognitive Science Joint-Ph.D. program
- 2011 - 2012 **M.S. in Computer Science, Bowling Green State University, Bowling Green, OH**
- 2007 - 2011 **B.S. in Computer Science & Psychology, Bowling Green State University, Bowling Green, OH**
Minor in Mathematics, Cum Laude

Technical Skills

Languages

Core: Java, Python, C++
Experienced: PHP, Javascript, Clojure, HTML/CSS, R
Exposure: C, SQL, Scheme, SML, Prolog, CUDA

Tools

src Control: Git, Subversion
Build: Ant, Leiningen
Editors: Emacs, IntelliJ IDEA, Visual Studio

Platforms

Robotics: Hands-on development experience with the MDS, PR2, Nao, Pepper and Roomba robots. Familiar with ROS and have extensive experience working with Aldebaran's NaoQi robotics middleware, as well as ADE – a research focused distributed, multi-agent robotics middleware

Linux: Considerable Linux development experience, and comfortable at the command line shell
